Summary

Full Stack Web Developer with a background in Computer Science and Information Systems. adept at working independently as well as collaborating with teams across multiple functions to break down concepts in layman terms. Develops user-friendly and mobile centric applications no matter the difficulty of the project. Completed a 24 week FullStack development bootcamp certificate.

Technical Skills

Languages: HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, GraphQL, Node Js, MySQL, MongoDB, Express, Handelbars.js, ReactJS, C++, C#, Python, Basic, & Java.

Projects

Cocktail Dreamer | <https://github.com/AnthonySzymczak/Cocktail-Dreamer> |

<https://cocktail-dreamer.herokuapp.com/>

This application is meant to take a deeper dive into the world of cocktail making and cocktail knowledge. Here you will be able to create/ save your own recipes, and learn more than most bartenders about spirits and cocktails. I layed out the nav bar, the single page application navigation, modals for recipe viewing, and knowledge portions.

Technologies used: React, Mongoose, tailwind, express, node.

Startifacts: | <https://github.com/AnthonySzymczak/Startifacts> |

<https://startifacts.herokuapp.com/index>

This is a web-page for browsing and saving memorabilia related to tv shows and movies. Project consisted of three collaborators, my responsibilities were laying out the shop pages, login functionality, & ui polishing.

Technologies used: BulmaCSS, Javascript, Handlebars.js, express.js

Crypto-tycoon | <https://github.com/AnthonySzymczak/Crypto-Tycoon> |

<https://anthonymszymczak.github.io/Crypto-Tycoon/>

This application is a clicker-style game where dogecoins populate randomly across a specific grid, the objective is to purchase all the upgrades to increase your hashrate. Project consisted of five collaborators, my responsibilities were laying out the shop page and including game music. **Technologies used:** Javascript, HTML5, CSS,
